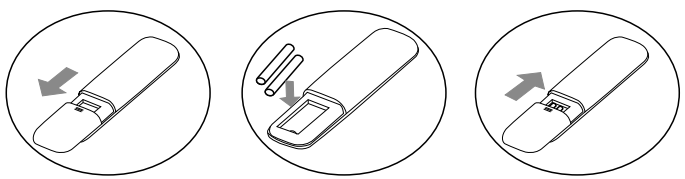
★ Dry operation mode

1. Press the “ON/OFF” button, the air-conditioner starts to operate.
2. Press the “MODE” button, select dry operation mode.
3. By pressing the “ + ”or “ − ”button, you can set temperature from 16℃ (60℉) to 32℃(90℉), the display changes as you press the button.
4. Press the “ON/OFF” button again, the air-conditioner stops.

Note: In the dry mode, the speed settings is non-effective.

Usage

★ Fix batteries



1.Slide to open the battery cover according to the direction indicated by the arrowhead.
2.Insert two brand new batteries (7#), and position the batteries to the right electric poles (+&−).
3.Put back the battery cover.

26. Temperature setting function:

1. Only YKR-T/121E and YKR-T/131E have this function;
2. In the shutdown state, press the "Cool" key and the "Mode" key at the same time for 10 seconds or more, the maximum temperature setting value (32℃/90°F) will be displayed, and the "H" will flashes, press the [+/-] key to adjust the range, and press the "Mode" key to confirm. The minimum temperature setting (16°C/60°F) is displayed, and the "L" flashes. Press the [+/-] key to adjust the minimum temperature range. Press "Mode" to confirm, then the setting is complete;
3. When setting the minimum temperature, long press the "Cool" key and "Mode" key for 10 seconds or more can switch to the maximum temperature;
4. You need to reset after replacing the battery.

Usage for Mode

★Auto operation mode

1. Press the “ON/OFF” button, the air-conditioner starts to operate.
2. Press the “MODE” button, select auto operation mode.
3. By pressing the “SPEED” button, you can select fan speed from Low, Mid, High, Auto.
4. Press the “ON/OFF” button again, the air-conditioner stops.

Note: In the auto mode, the temperature settings is non-effective.

★Cool/Heat operation mode

1. Press the “ON/OFF” button, the air-conditioner starts to operate.
2. Press the “MODE” button, select cool or heat operation mode.
3. By pressing the “ + ”or “ − ”button, you can set temperature from 16℃ (60°F) to 32℃(90°F), the display changes as you press the button.
4. By pressing the “SPEED” button, you can select fan speed from Low, Mid, High, Turbo, Auto.
5. Press the “ON/OFF” button again, the air-conditioner stops.

Note: The cold wind type has no heating function.

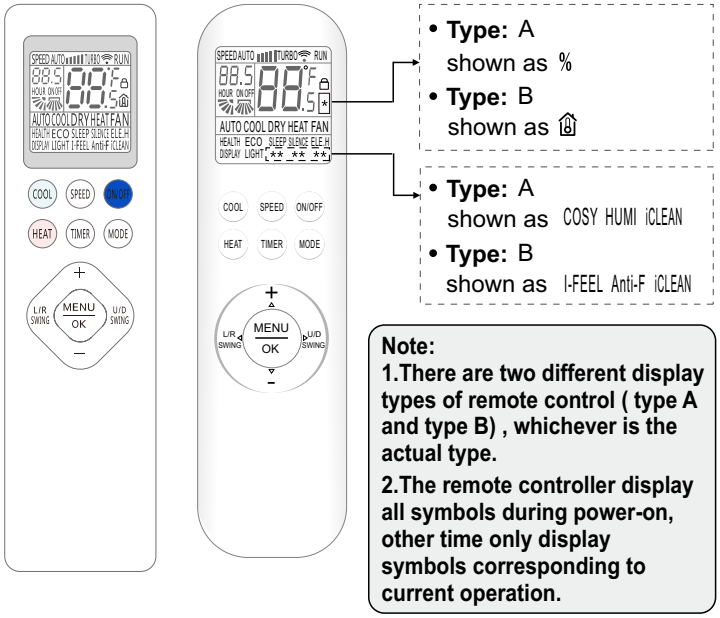
- Before first time use of the remote controller, install the batteries and ensure the “+”and “−” poles are correctly positioned.
- Ensure the remote controller is pointed to the signal receiving window and that there is no obstruction between them, the distance is 8m at the maximum.
- Do not let the remote controller drop or fling it at will. Do not let any liquid in the remote controller. Do not expose the remote controller directly to the sunlight or excessive heat.
- If the remote controller does not function normally, remove the batteries for 30 seconds before reinstall them. If that doesn't work, replace the batteries.
- When replacing the batteries, do not mix the new batteries with old ones or mix batteries of different types, which could cause failure of the remote controller.
- If the remote controller is not to be used for a long period of time, remove the batteries first, lest the leakage from them may damage the remote controller.
- Properly dispose the discarded batteries.

Note:

1. This is an universal remote controller which provide all the function buttons. Please understand that some of the buttons may not function, depending on the specific air conditioner you have purchased. (If a specific function is not available on the air conditioner, pressing the corresponding button will simply have no respond.)

2. HEAT and ELE.H functions are not available for cool only models, thus these two buttons do not work correspondingly.

Buttons Description



1. ON/OFF Button

* Press this button to turn on/off the unit.
* This will clear the existing timer and sleep settings.

2. MODE Button

* Press this button, you can select operation mode as follows:

AUTO → COOL → DRY → HEAT → FAN
